EDUCATION

A. P. Shah Institute of Technology, Thane (University of Mumbai)

July 2021 – June 2025

Bachelor of Engineering (B.E.), Computer Engineering — CGPA: 8.08/10.0

N.E.S High School and Junior College, Bhandup

May 2018 – May 2020

Senior Secondary (XII), Science — 86%

TECHNICAL SKILLS

- **Languages:** JavaScript, TypeScript, HTML, CSS, PHP, Python, Java, C
- **Frameworks:** React Native, Expo, React
- **Databases:** MySQL, MongoDB, Firebase Firestore
- **Mobile Development:** Cross-platform Android & iOS development, Expo, native module integration
- **APIs & Integration:** REST API design & integration, Google Maps API, real-time data sync
- **Tools & Platforms:** Git, GitHub, Bitbucket, VS Code, Figma, npm
- **Cloud:** AWS, Google Cloud Platform, Firebase
- **Other:** Application troubleshooting & log analysis, incident/problem management

PROJECTS

Urban Hive – Smart Urban Services

- Developed and deployed a React Native (Expo) app for real-time service provider discovery, request management, and secure payments, using Firebase and Google Maps API.
- Integrated Firebase Firestore for real-time synchronization of service requests between customers and providers; resolved sync issues to improve update speed.

rn-whiteboard-kit — Open-Source npm Package

- Built and published an Expo-compatible React Native whiteboard component supporting freehand drawing, pinch-to-zoom, pan, undo/redo, eraser, and PNG export — no native linking required.
- Designed a developer-focused hook-based API (`useWhiteboard()`) for cross-platform (Android/iOS/Web) integration.

Additional Projects

- **Brewtech** – React Native (Expo) management app for coffee shop operations: inventory, orders, and staff workflow tracking.
- **EV Charging Station Finder** – React Native (Expo) app using Google Maps API for real-time, location-based discovery of nearby EV charging stations.
- **Agent Live Tracking Platform (Web + Mobile)** – Cross-platform system for live agent/delivery tracking with task assignment, real-time map updates, and REST API-driven completion reporting.
- **Exhibition Tracking System (Web + Mobile)** – Full CRUD web and mobile application for tracking worldwide exhibitions and maintaining historical company records via REST API.
- **Arcal** – Calculator app (Web + React Native) with third-party REST API integration (Gati) for live rate/data lookups.

EXPERIENCE

Binnys Management – React Native Developer

Oct 2025 – Present

- Contributed to cross-platform React Native apps published on the Play Store (Create, Vision, Scan, MyBinnyst, Track), focusing on UI fixes and rendering efficiency improvements.
- Integrated backend services via REST APIs to deliver smoother, more responsive UI experiences.
- Took ownership of assigned features end-to-end, ensuring clean implementation and on-time delivery.

ADDITIONAL INFORMATION

- **Languages:** English, Hindi, Marathi
- **Certifications:** Google Ads Certification, Azure DevOps Boards, WordPress Development, CISCO IT Essentials, C & C++ (SITH Foundation)
- **Awards/Activities:** Winner – EXALT 2023–24 (APSIT); Hackathon Participant; Open-source contributor
